

Habitat Study Plot

Directions:

1. Work in small teams of 2-3 students.
2. Gather 4 sticks about one foot long.
3. Choose a study plot and place the 4 sticks in a square.
4. Look for an animal. Draw it below.
5. Find the animal's food, water and shelter. Draw or list their sources below.
6. Draw or list any other interesting things in your plot.
